

MARCUS RHODES
(HONORARY TREASURER)

'I experienced a spinal cord injury in December 2015 while body surfing in Tenerife. A freak wave hit me and damaged my spinal cord at the C5 level. Fortunately, I have managed to regain all my mobility and independence but still suffer from neuropathic pain which I self-medicate for.

I have been a professional non-executive independent board member for the last 10 years. I have represented the shareholders of 10 companies over that period as audit committee chair. My main expertise and oversight responsibilities are in the area of audit, accounting, corporate finance, taxation and corporate governance.

I look forward to contributing to the activities of SIA in a positive and proactive manner.'
