

## MARTIN HIBBERT

*Prior to my injury I had an 18 year career in private/wealth management. I am currently MD of Synergy Sports Management and a football agent, looking after professional footballers in the women's game. Over the last 20 years I have gained experience of dealing with people from all walks of life.*

*I was seriously injured in the 2017 Manchester Arena bomb and have been left with a T-10 complete spinal injury. My teenage daughter was also seriously injured. I have enjoyed supporting SIA as a member over the last couple of years and was very proud to be asked to help with a fundraising video with my mentor, Peer Support Officer Gary Dawson, in 2018.*

*I have addressed the attendees at the Cornflower Ball and more recently the October Club Dinner and was part of SIA's original pitch to the October Club. I feel that SIA is an invaluable organisation doing essential work, and it is an honour to be a Trustee and be part of the team going forward.*
