

SIA Fundraising Kit: “DIY Printed Bunting”

Follow a few easy steps to create your own SIA branded bunting, and help celebrate any fundraising event in style!

- **Step 1:** Print off this template as an A4 (single-sided) document (colour optional).
- **Step 2:** With some helpers: trim the bunting to size following the grey outline (although nobody will notice if you don't).
- **Step 3:** Once you have all your bunting printed, lay it out in order (so that you have the word “thank you” spelled out in a row, with SIA flags in between)
- **Step 4:** Measure a piece of string big enough to stretch between each piece of paper (making sure to leave a bit extra in between each piece, and extra at each end to attach to whatever you are hanging your bunting from).
- **Step 5:** using either glue, or sticky tape, fold the top of each piece of paper - along the dotted line – over the piece of string, and seal down firmly (to stop the string falling out)
- **Step 6:** Carefully attach the bunting to a solid surface of fixing using either blu tac, more sticky tape, or by tying it around a stable wall fixing or bracket.
